Future Series

30 x 60 Future Lite

TopTec's Future Series of frame tents offers the latest in tent design and technology. Ladder work and lacing are eliminated which result in lower labor cost for you.

40 x 60 Future Trac

This unique design utilizes the strongest tube available for a frame tent today. Tops tension in to the frame which adds to its stability and overall total strength. The Future-Trac provides the engineered technology to ease your concerns of losing tops in high winds, yet is still easy to erect with a minimal set-up crew.

40 x 60 Future Trac Catenary Valance

The TopTec Future-Trac and Future-Lite series of frame tents feature the technology of a structured fabric system and the ease and price of a Western Style tube system. All tops are electronically sealed to a Keder bead that slides through the Keder channel on each rafter and crown assembly. This process locks the top into the frame resulting in a stronger and quieter tent in nearly all conditions. Ratchet straps connect the ten tops to the frame's base plates resulting in a secure connection to the frame.

Frame system combines Keder (slide in) top sections with the most common frame system used today. This is the strongest frame system available, yet is light to handle, installs and removes with considerable less labor costs.

Future Tube is 50% stronger than other twin tube designs without the added weight. It is easily quick pinned for fast set up or can be bolted for long term durability.

Future-Trac tubing features keder rails which allow the tent top to slide into the frame quickly yet gives much greater strength and stability.

The Future-Lite 2" tube gives a stronger 2" frame system with slide-in tops that reduces labor costs and prolongs the life of the tent top.

ORDERING INFORMATION

Future Lite

Size	Type	Pitch	Number of Legs
20' x 20'	2-Piece	5 ft.	8
20' x 10'	Mid Section	5 ft.	2
20' x 15'	Mid Section	5 ft.	2
30' x 30'	2-Piece	7 ft. 6 in.	8
30' x 10'	Mid Section	7 ft. 6 in.	2
30' x 15'	Mid Section	7 ft. 6 in.	2

Future Trac

30' x 30"	2-Piece	7 ft. 6 in.	8
30' x 10'	Mid Section	7 ft. 6 in.	2
30' x 15'	Mid Section	7 ft. 6 in.	2
30' x 20'	Mid Section	7 ft. 6 in.	2
40' x 40'	2-Piece	10 ft.	8
40' x 10'	Mid Section	10 ft.	2
40' x 15'	Mid Section	10 ft.	2
40' x 20'	Mid Section	10 ft.	2
50' x 50'	2-Piece	12 ft. 6 in	16
50' x 10'	Mid Section	12 ft. 6 in	2
50' x 15'	Mid Section	12 ft. 6 in	2

Tents and accessories are designed and manufactured as temporary shelters. Location and conditions will also affect the product's performance. Tents should not be occupied in extreme or adverse weather conditions. TopTec is not responsible for accidents, injury or property damage which may result from the improper use or installation of its tents or accessories.
