Tent Doors

Assembly Instructions

1. Insert header assembly (C) onto left upright assembly (A) and attach with the bolts provided.
2. Next, insert right upright assembly (B) into the header tube (C) and attach as in the previous steps, then secure with the bolts provided.
3. Insert extension tube's (D) vertically into the upright assemblies. Attach the mounting bracket (E) to the eave tube and secure with the bolt provided.
4. Install frame at desired location being careful to maintain equal distance top and bottom for proper alignment. Pin extension tubes to the mounting bracket and lock into place.
5. Install doors onto pin mounts and attach closer arms to header frame.

Note: For tents with no eave tube, the extension tubes (D) can be installed horizontally into the header assembly.

Proper operation of the doors may require shimming under the base plates to obtain true vertical alignment.

Frame Parts

- A Left Upright Assembly
- B Right Upright Assembly
- C Header Assembly
- D Extension Tube
- E Mounting Bracket

Double Door Sidewall Opening - 72" (W) x 80" (H)
